simplex	2.00
spelndens selecta	5.00
WITTROCKIA superba	5.00

BROMELIACEEN sind die ZIMMERPFLANZEN von heute und morgen (W. Richter).

Bromelien sind anspruchslose Dauerpflanzen, in bezug auf Schmuckwert & Widerstandsfähigkeit nicht von anderen Zimmerpflanzen zu uebertreffen. Bromelien sind schmuckvolle Blattpflanzen mit farbenpraechtigen, monatelang unveraenderten Bluetenstaenden. Sie sind aeusserst anpassungsfähig, da die Natur sie zu besonderer Haerte erzogen hat.

Alle unsere Bromelien kommen aus 2-6 jaehriger Kultur, teils mit Knospen & Blueten. Nutzen Sie unsere konkurrenziose Sonderangebote.

Bromeliads, the new indoor-plant, if you live in warm climate, also outdoors. Same cultural requirements as orchids, but bromeliads are much more tolerant of conditions. Always a beautiful ornamental plant, the flower lasts several month. Our bromeliads are 2-6 years old, and will grow will in pots or on tree-trunks and tres. In nature even on bare rocks.

Please have a look at our big choice, every shipment will be accompanied by some flowering bromeliads. Note also the specials (even if you are reselling).
